

# C3- S3-HANDOUT

## Search Engine

---

Search Engine is the tool (software system) that is designed to search for information (text, picture, video, sound...) on the World Wide Web. There are a lot of search engine companies but the most popular are:

### 1. Google

Google Search Engine, owned by the company Alphabet. The search engine giant holds the first place in search. Access by [www.google.com](http://www.google.com)

### 2. Bing

Bing is Microsoft's attempt to challenge Google in the area of search, but despite their efforts they still did not manage to convince users that their search engine can produce better results than Google. Access by [www.bing.com](http://www.bing.com).

### 3. Yahoo

Yahoo is still the most popular third place in search. Access by [www.yahoo.com](http://www.yahoo.com)

### 4. Ask.com

Formerly known as Ask Jeeves, Ask.com receives approximately 3% of the search share. ASK is based on a question/answer format where most questions are answered by other users or are in the form of polls. Access by [www.ask.com](http://www.ask.com)

## Search Tricks & TIPS

---

1. Calculate on search Engine:

2. Search definitions with word **define**:
